

## Explanation of Codes for Special Genetic Traits

Code	Trait	Genetic	Code	Trait	Genetic Event
B1	Resistant to corn borer	MON 810	B3	Resistant to corn borer	Event 176
B2	Resistant to corn borer & tolerant to Liberty herbicide	Bt11	B5	Resistant to corn borer and tolerant to Liberty herbicide	TC1507
R	Tolerant to glyphosate	NK603	L1	Tolerant to Liberty herbicide	T14
			L2	Tolerant to Liberty herbicide	T25

The Ontario Corn Committee does not assess hybrids for Special Genetic Traits. Hybrid descriptions are based on information received from corn companies, as of November 20, 2004. Although the Ontario Corn Committee believes the information contained in this report to be accurate, growers are strongly urged to consult dealers of the respective hybrids and products, before making purchasing or management decisions.

All hybrids included in this report have been fully approved for food and feed use in Canada and the United States. However, those designated with the codes "R" (Roundup Ready) or "B5" (Herculex) and those which contain more than one genetic event have not been approved for the European Union. Corn harvested from these non-EU approved hybrids must be delivered to a market that will not ship the grain or its processed products to Europe. For more information, contact your seed supplier.

### SEED CORN DEALERS

Brand or Identification	Company	Address of Canadian Sponsor	Telephone
Country Farm	Country Farm Seed	148 Wellington St. W., Chatham N7M 5L8	1 - 800 - 449 - 3990
